

85 INCH

Life-Size

The dynamic large screen meets a wide range of applications.

CONFERENCE ROOMS

- 1 Bright, detailed images make conference materials easy to read.
- 2 Excellent PC compatibility enables wireless presentations.
- 3 The slim body and wall-mounted installation make effective use of space.

STOREFRONTS

- 1 Even product textures are distinctly displayed in high-definition images.
- 2 Ceiling-mounted installation lets you use space more effectively.
- 3 The long-life panel lowers running costs.

SIGNBOARDS

- 1 High moving-picture resolution clearly displays motion images.
- 2 The wide viewing angle provides accurate information to viewers in public spaces.
- 3 The protective front glass is ideal for installation in crowded areas.

HOME THEATERS

- 1 The dynamic large screen produces stunning full-HD images.
- 2 Wall-mounted installation lets you use space more effectively.
- 3 A wealth of options ensure compatibility with a wide range of interfaces.

TH-85PF12 Overview

FULL HD **NeoPDP** **PJLink™**

TH-85PF12

- 1080p full-HD display
- Moving-picture resolution of 1080 lines
*Moving-picture resolution based on the APDC (Advanced PDP Development Center Corporation) measurement method.
- High Contrast of 40,000:1
- Thinner design 99 mm

Options:

- Pedestal
- Floor stand
- Wall-hanging bracket
- Ceiling-hanging bracket

Large 85-Inch Screen

The high visibility of this ultra-large screen, equivalent to four 42-inch screens, makes it ideal for public facilities. It realistically displays life-size people, rendering natural expressions and even the texture of their clothing. Its highly noticeable large screen is also perfect for eye-catching digital signage use.

For Meetings

For Storefronts

NeoPDP Technology

The NeoPDP technology incorporated in this plasma panel is the key to its ultra-slim body and power-saving efficiency. The body is only 99 mm deep, and the display offers high brightness and excellent moving-picture resolution for crisp, clear motion images.

NeoPDP Technology in the TH-85PF12

<p>Brighter</p> <p>Greatly improved brightness produces stunning, large-screen images.</p>	<p>Thinner</p> <p>The slim design has the same 99 mm depth as a 65-inch model.</p>	<p>Lighter</p> <p>The body is as light as about 117 kg.</p> <p>Approx. 117 kg</p>
